

Ladenko Kombo Cavity Sliding Door Design

Custom Sizes | 80 - 180kg door weight | Custom stud size | Architrave | Square Set | P50 Shadow Line | P25 Stopping Angle

The Ladenko Kombo is available in all custom sizes to suit both full height (ceiling height) and less than full height doors.

The Ladenko KOMBO cavity sliding door system is the answer to space saving applications where you have a short wall space into which you need to accommodate two opposite parallel sliding doors which will slide into the same cavity sliding door frame.
